

## Editorial guidelines

### *Educational Reflective Practices*

- 1) **Submissions** to the journal should be original unpublished work and should not be under review with any other journal. Papers should be submitted by clicking on the button “Submit a paper”, available into this web page: <http://www.francoangeli.it/riviste/sommario.aspx?IDRivista=172&lingua=EN>. **At this stage, the articles should be anonymous; name, surname, affiliation (university, research centre, etc.), address, email and phone numbers of the author(s) and further details about the article are to be inserted only in the fields provided on the [FrancoAngeli Journals OJS platform](#).**
- 2) **Papers should be sent together with a copyright transfer agreement**, where the author(s) grant(s) and assign(s) to the Editor of the Journal during the full term of copyright (20 years under current regulation) the exclusive rights to translate, reproduce, republish, transfer, sell, distribute or otherwise use the article or parts contained therein, for publication in any format. It thus includes electronic editions and derivative works in all languages and in all media of expression now known or later developed as well as the license or permission given to others to use the article in whole or in part free of charge or against payment.
- 3) **Once the review process is closed**, a new version of the article should be sent to the Editorial board and it should contain **name(s) of author(s), affiliation (university, research centre, etc.), address and phone numbers of the author(s)**. Further details about the article are to be clearly indicated as footnote in the first page, using \* and \*\* as reference mark, while for the footnotes through the text make use of the numerical system starting over with number 1 at the beginning of each paper.
- 4) A concise and factual **abstract in English** should be included in the article file. Do not exceed 2000 strokes (including spaces). The abstract should give the salient information on the contents of the article and be expressed in the third person (Example: the authors affirm that...). **The article file should also contain a maximum of 6 keywords in English**. Words selected as keywords should reflect the essential topics of the article and will be used for indexing purposes.
- 5) **Set-up of the page and quotations** - Use Roman type, *Italic* and **Bold** font. Italics should be used for foreign words that do not yet have everyday use and to stress words or short sentences. In order to emphasize sentences or quotations that are not exactly cited, make use of inverted commas (“...”); for exact quotations use guillemets («...»). At the end of the quotation provide in brackets the references to the specific pages of the source used (73-74), if these are not already specified before. Use inverted commas or apostrophes to indicate quotes within quotes. Lengthy quotations (more than 5 lines) should be separated from the text and have a blank line above and below. As they will be printed in a smaller font, it should be advisable to use it also in the manuscript. Use ellipsis dots (...) to show omission.
- 6) **Font Type (Erp-modello word)**
  - **Text:** Times New Roman at a size 11 points, justified, single spacing, paragraph indent 0,5 cm, use automated widow control.
  - **Title of the article:** Times New Roman, size of the text 16 points, bold, flush left.
  - **Title of the section:** Times New Roman, size 12 points, bold, flush left, 2 double spacing above and 1 below.
  - **Title of subsection:** Times New Roman, size 11 points, flush left, bold, italic, 1 spacing above and 1 below.

- **Page number:** Times New Roman, Italic, 11 points, centered, no indent or frame.
- **Footnotes:** placed at the bottom of the page, Times New Roman, size 9 points, numbering sequentially to footnote 1, without references.
- **References:** Times New Roman, size 10 points, one spacing, hanging indent 0, 5.
- **Footer:** on the first page of each article cite the title of the journal, the number and the year of publication: *Educational Reflective Practices (ISSN 2240-7758, ISSNe 2279-9605), 1/2019.*

## 7) Layout of the text

Each article should be in A4 size (to select A4, click Page Setup on the File menu).

The text has to be set up according to the following features.

Top margin cm 5

Bottom margin cm 6,2

Left margin cm 4,6

Right margin cm 4,6

Footner cm 5,2

The text is therefore 11,8 cm wide and 18,5 high. The page number is centered at 0, 8 cm starting from the foot of the last line.

## 8) References embedded in the text: cite only the last name of the author followed by one space and then the year of the first publication of the work in its original language in round brackets.

- Example: Freud (1899) said that....

or insert the last name of the author followed by comma, one space and the year of publication in round brackets.

- Example: (Freud, 1899).

Page number, if known, follows the year in brackets and does not go into the reference section.

- Example: (Loewald, 1980, p. 56 ).

If the page number refers to the original date of the work and not to the Italian translation listed in the references section, add "original edition." (Loewald, 1980, p. 56 original edition.). If the reference section contains more than one translation, specify the year of the translation which you are referring to.

- Example: (Loewald, 1980, p. 97 It. trans. 1994)

If there is more than one reference to the same author(s) and year, use the year and a, b, etc. Use comma to separate references and not pages, if given, when listing a string of references of the same author(s). If there are more authors, use semicolon to separate them within the same brackets. When there are two authors, cite both last names joined by and. If there are three authors, cite them all and join the last two by and; if there are more than three authors, refer to the first one followed by *et al* in Italic. See following examples:

- Freud (1899) said that
- According to the theory of dreams (Freud, 1899)
- The principles of the cognitive therapy (Beck *et al.*, 1979) affirm that...
- Kernberg (1981, p. 35) says textually that...
- Eissler (1953) wrote that «Every introduction of a parameter incurs the danger that a resistance has been temporarily eliminated without having been properly analyzed» (p. 65).

## 9) Reference section: the complete reference list of the authors comes at the end of the article and consists of an unnumbered section sorted alphabetically according to their last name; for each author follow the year of publication of his works. If works were published in the same year use letters a, b, c. If there are two authors with the same last name (for example Melanie Klein and George S. Klein), cite them alphabetically according to the order of their first name; if the last names and the initials of their first names are the same, use their full name: first and last name and also middle initial (for example Daniel N. Stern and Donnel B. Stern). After the last name and the initial of the first name, cite the year in brackets followed by a full stop.

- Example: Freud S. (1910).

Avoid spaces between first name initial and middle initial.

- Example Kernberg O.F.

Should a text have many authors/editors, you have to cite them all. The editor(s) name is followed by brackets with ed. or eds. Please quote only what it is contained in the article. If the publication year is different from that of the original one, cite it after the name of the publisher, otherwise it is enough to put the year in brackets at the beginning of the entry, immediately after the name of the author.

References should be written following some common examples shown below.

11) **Punctuation**

Leave one space after but not before the following punctuation marks: full stop (.), comma (,), colon (:), semicolon (;), question mark (?), exclamation mark (!), closing guillemets (») and closing inverted commas (");

12) **Hyphens** are used when two words modify a third word (a compound adjective).

- Example: Low-income housing  
or to join numbers or pages

- Example: in the years 1970-80.

Hyphens do not have spaces around them.

**En Dashes** are used to stress a nested clause or phrase and to emphasize parenthetical expressions. They want a space before and after.
